

Company Policy

The Montanwerke Brixlegg AG Quality, Safety, and Environmental Protection Principles

// CUSTOMERS AND SUPPLIERS

Montanwerke Brixlegg AG always delivers premium-quality products on schedule and takes a flexible approach to meeting individual customer needs. We quickly respond to shifting market situations, employing a certified quality management system to map the required processes, interdependencies, and responsibilities. Our longstanding partnerships with suppliers as well as our access to an international network ensure the availability of the necessary (raw) materials.

// CONTINUOUS IMPROVEMENT

Montanwerke Brixlegg AG is committed to living out this principle. To this end, we analyze and optimize processes on a consistent, ongoing basis, subjecting them to intense scrutiny. We highly value our employees' suggestions for improvement and readily implement their ideas. We also take any critical feedback we may receive from customers and partners and use it to derive measures for optimization.

// ENVIRONMENTAL PROTECTION

The certified environmental management system in place at Montanwerke Brixlegg AG underpins our methodical approach to continuously improving our environmental impact. We evaluate measurable KPIs to derive effective methods for achieving our environmental goals, and we make sure to uphold environmental regulations in all that we do.

// SAFETY

Protecting the health of our employees as well as of individuals located in our catchment represents a top priority, which is why we take care to observe all the applicable safety regulations. Systematic risk assessment and comprehensive emergency planning guarantee maximum safety at Montanwerke Brixlegg AG.

// TRANSPARENT COMMUNICATION

Internal reporting ensures transparent communication along our various levels of management. We involve front-line employees to raise their awareness of goings-on within the organization, and have established a regular, open flow of information to support this. Local residents are also important to Montanwerke Brixlegg AG; we make sure to communicate with them openly, addressing them as equals.

// ORGANIZATION AND TECHNOLOGY

Montanwerke Brixlegg AG is organized in a way that reflects our commitment to environmental protection. We make sure to deploy sufficient resources towards fulfilling our company goals. Employing qualified personnel and providing them with continuous training lays the groundwork for our success. To protect our interests, the systems at Montanwerke Brixlegg AG are designed and operated with cutting-edge technology.
