

Verification Statement

VS-3549781

The “Life Cycle Assessment of Montanwerke Brixlegg for the production of Copper” for the reference year 2020, final report dated 17th May 2022,

prepared by
Sphera Solutions, Inc.

on behalf of
Montanwerke Brixlegg AG
Werkstraße 1, 6230 Brixlegg, AT

was verified in accordance with ISO 14064-03:2019 regarding the compliance with the requirements of ISO 14040/44:2006 and 14067:2018.
We hereby confirm:

Product Carbon Footprint

Copper cathodes grade A: 739 $\frac{kg\ CO_2eq.}{ton_{copper\ cathode}}$

The Lifecycle Inventory and respective Product Carbon Footprint were calculated from the acquisition of copper scrap until the completion of the copper cathode production process (“cradle to gate”). Emissions resulting from the transportation of the product to the users, the use of the products, subsequent manufacturing processes and the end-of-life treatment are not included.

Level of assurance	reasonable
Level of materiality	5 % for the total sum

This verification statement is only valid for the mentioned scope of application and in combination with the objectives, explanations and criteria for evaluation specified on page 2 to 5 in the following verification report.
